

SENDA PLAN September 2021 - August 2024

Overall Aim

Gateway School seeks to remain an inclusive school and provide equality of access and opportunity for all pupils to the extent that reasonable adjustments can be made to the school's premises and procedures. The school aims to ensure that students with disabilities or learning difficulties are not discriminated against or placed at substantial disadvantage in those areas of school life that are normally accessible to the whole pupil body.

The plan seeks to:

To make staff aware of the implications of the definition of disability in the Equality Act 'A physical or mental impairment which has substantial and long term adverse impact on a person's ability to carry out normal everyday activities'

Updated in September 2021

To be reviewed: August 2024

This plan covers a three-year period. It is reviewed annually by the school and monitored by governance.

Our statutory responsibilities:

Gateway School makes these accessibility plans available to all interested parties on request.

Our plan is to increase over time, or when need arises, the accessibility of the school for disabled pupils and implement the plans that are outlined in this document.

Equal Opportunities

We welcome children from many different ethnic and racial groups, backgrounds and creeds. Human rights and freedoms are respected but must be balanced with the lawful needs and rules of our school community and the rights and freedoms of others. The School is committed to being an Equal Opportunities Education provider and is committed to equality of opportunity for all members of the school community. The school recognises and accepts its responsibilities under the law, in line with the 1976 Race Relations Act and in line with the Equality Act 2010; all candidates for admission will be treated equally, irrespective of their, or their parents' age, gender, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race or ethnicity, language, religion or belief, national or social origin, sexual orientation, property, birth or other status. We expect all of our pupils to attend all assemblies and outings, and to take full part in all Religious Education, and Learning for Life lessons.

Improve the physical environment of the school in order to increase the extent to which disabled pupils are able to take advantage of education and associated services offered by the school.

This includes improvements to the premises and grounds, taking into account the consideration of reasonable adjustment and any restrictions such as may result from planning consent or listed building/conservation area status. In respect of the latter, GatewaySchool is in a situation of particular

Updated in September 2021

To be reviewed: August 2024

restriction. Part of the school occupies a Grade II listed building, together with a number of permanent and temporary classrooms, in a designated conservation area of Buckinghamshire in Great Missenden. The fact that the main school building is a listed building, severely limits the ability of the school to make physical adjustments to its premises.

APPENDIX 1

Welcoming and Preparing for Disabled Pupils

Where it is practicable to make reasonable adjustments to enable a prospective pupil to take up a place at the school and to satisfy the current admissions criteria, the school is committed to providing those reasonable adjustments. School will work with the appropriate external agencies to ensure provision of additional services, known as auxiliary aids and services.

Auxiliary aids and services.

We are mindful of our duty to provide auxiliary aids and services: ‘where a disabled person would, but for the provision of the auxiliary aid, be put at a substantial disadvantage in relation to a relevant matter in comparison with persons who are not disabled.’ In order to meet the needs of disabled pupils, the school requires full information and close liaison with the parents. The school will ask all applicants for admission to the school to disclose whether they have received any learning support, have had an educational psychologist's report or have any disability or other condition of which the school should be aware.

In assessing the pupil or prospective pupil, the school may need to take advice and require assessments as appropriate. The school will be sensitive to any issues of confidentiality. Full details of the plan may be requested from the Head Teacher..
